## THE DEER CLUB

We start off at **The Deer Club** located at the **D.O.M. Hotel** on Via Giulia 131, one of Rome's oldest streets. The Deer Club is a beautifully conceived lounge designed to be a place for meeting, drinking, talking, listening and eating. It is an extremely intimate location where all of the senses are accentuated, thanks to its design and style as well as the curated cocktail menu. The Deer Club is decorated with silk velvet sofas, long curtains, crystal chandeliers, large Venetian style mirrors all over the room and to top it off three precious "Ladies and Gentlemen" pieces by Andy Warhol. When you sit back and enjoy your drink, you get the feeling that this is also a place where you communicate with your eyes, a sort of "nonverbal" connection with the other guests. In addition to a wide selection of spirits, wines, and champagnes, guests may enjoy various signature cocktails by Deer Club's expert bartenders. The Deer Club is by far one of the most dynamic and beautiful lounges in Rome, similar to a speakeasy with a refined and chic feel, a must see while in Rome. It is open every evening from Monday to Saturday and the reservation is recommended.
